

§ 40A-66. Compensation to reflect project as planned.

(a) If there is a taking of less than the entire tract, the value of the remainder on the valuation date shall reflect increases or decreases in value caused by the proposed project including any work to be performed under an agreement between the parties.

(b) The value of the remainder, as of the date of valuation, shall reflect the time the damage or benefit caused by the proposed improvement or project will be actually realized. (1981, c. 919, s. 1.)
