§ 58-3-181. Synchronization of prescription refills.

- (a) Every health benefit plan that provides coverage for prescription drugs shall provide for synchronization of medication when it is agreed among the insured, the provider, and a pharmacist that synchronization of multiple prescriptions for the treatment of a chronic illness is in the best interest of the insured for the management or treatment of a chronic illness, provided all of the following apply:
 - (1) The medications are covered by the clinical coverage policy.
 - (2) The medications are used for treatment and management of chronic conditions, and the medications are subject to refills.
 - (3) The medications are not a Schedule II controlled substance or a Schedule III controlled substance containing hydrocodone.
 - (4) The medications meet all prior authorization criteria specific to the medications at the time of the synchronization request.
 - (5) The medications are of a formulation that can be effectively split over required short-fill periods to achieve synchronization.
 - (6) The medications do not have quantity limits or dose optimization criteria or requirements that would be violated in fulfilling synchronization.
- (b) When applicable to permit synchronization, the health benefit plan shall apply a prorated daily cost-sharing rate to any medication dispensed by a network pharmacy pursuant to this section. Any dispensing fee shall not be prorated and shall be based on an individual prescription filled or refilled.
 - (c) The following definitions apply in this section:
 - (1) Health benefit plan. As defined in G.S. 58-3-167. The phrase also applies to limited-scope dental and vision insurance.
 - (2) Health care provider or provider. As defined in G.S. 58-3-225(a)(4).
 - (3) Insured. An individual who is eligible to receive benefits from the health benefit plan.
 - (4) Insurer. As defined in G.S. 58-3-225(a)(5). (2015-241, s. 20.2(a).)
