1 A BILL TO BE ENTITLED
2 AN ACT TO CREATE THE NORTH CAROLINA EDUCATION STANDARDS
3 AND ACCOUNTABILITY COMMISSION.

4 The General Assembly of North Carolina enacts:

5 Section 1. Chapter 115C of the General Statutes is amended by adding a new
6 Article to read:

7 **"ARTICLE 8A.**

8 **"NORTH CAROLINA EDUCATION STANDARDS AND**
9 **ACCOUNTABILITY COMMISSION.**

10 **"§ 115C-105.1. Creation of the Commission.**

11 The General Assembly believes that all children can learn. The General Assembly
12 further believes that all graduates of North Carolina public schools should have
13 mastered the skills required to become productive members of the workforce and
14 succeed in life. The General Assembly further believes that having a highly qualified
15 workforce is essential to strengthening North Carolina's competitive position in the
16 modern world economy, improving workforce productivity, and ensuring a more
17 prosperous future for all our citizens. With that mission as its guide, the General
18 Assembly creates the North Carolina Education Standards and Accountability
19 Commission.

1 The Commission shall be located administratively in the Office of the Governor but
2 shall exercise all its prescribed statutory powers independently of the Office of the
3 Governor.

4 **"§ 115C-105.2. Membership.**

5 (a) The North Carolina Education Standards and Accountability Commission
6 shall consist of 25 members: 17 appointed by the Governor including a representative of
7 the Department of Public Instruction knowledgeable about program and curriculum and
8 a representative of the Department of Public Instruction knowledgeable about research
9 and development, four appointed by the Speaker of the House of Representatives
10 including at least one member of the House of Representatives, and four appointed by
11 the President Pro Tempore of the Senate including at least one member of the Senate.
12 The membership of the Commission should include (i) business, education, civic,
13 government, legislative, and nonprofit and foundation leaders from across the State, (ii)
14 at least two persons who are parents of public school children at the time of their
15 appointment, and (iii) representatives from The University of North Carolina and the
16 Department of Community Colleges. In making appointments, the appointing
17 authorities should consider the geographic, racial, gender, and socioeconomic diversity
18 of the State. Appointments to the Commission shall be made prior to August 1, 1993.

19 (b) The Governor shall designate a member of the Commission to serve as chair.

20 (c) Commission members shall serve for four years. If a vacancy occurs, the
21 appointing officer shall appoint another person to serve for the balance of the unexpired
22 term.

23 **"§ 115C-105.3. Purpose.**

24 The purpose of the Commission is to develop high and clearly defined education
25 standards for the public schools of North Carolina. These standards shall specify the
26 skills and the knowledge that high school graduates should possess in order to be
27 competitive in the modern economy. The purpose of the Commission is also to develop
28 fair and valid assessments to assure that high school graduates in North Carolina meet
29 these standards.

30 These high standards and assessments shall focus on the key skills needed by
31 students as they strive to be successful after high school and shall reflect the high
32 expectations for every student demanded by the State's education mission in G.S. 115C-
33 81(a), 115C-238.1, and 115C-238.13(a). Once these key skills are identified, parents,
34 teachers, and the entire school community should be encouraged to help each student
35 meet the student's fullest potential.

36 **"§ 115C-105.4. Duties of the Commission.**

37 (a) The Commission shall:

- 38 (1) Develop standards that outline what a high school graduate should
39 know and a series of benchmarks throughout the K-12 grades
40 structured to identify how well a student is progressing towards the
41 graduation standards. Standards shall include how well a student is
42 able to apply knowledge gained in such core subject areas as
43 mathematics, science, communication, history, geography, and the
44 arts.

- 1 (2) Define a system of benchmarks at appropriate grade levels requiring
2 students to demonstrate an ability to understand and apply what is
3 expected of them in these standards.
- 4 (3) Work with the Department of Public Instruction to ensure that end-of-
5 course assessments for core subjects are consistent with these
6 standards and with benchmarks set by the Commission leading to these
7 standards.
- 8 (4) Review and recommend a system of benchmark measurements that
9 appropriately assess the requirements as outlined in subdivisions (2)
10 and (3) of this subsection. The Commission may consider multiple
11 methods of developmental assessment.
- 12 (5) Recommend ways to ensure that each student is challenged to the
13 fullest extent of the student's ability by describing what actions shall
14 be taken when a student's level of achievement on a standard is less
15 than the student's potential.
- 16 (6) Recommend methods to measure each high school graduate's
17 performance on the standards, including a system that incorporates a
18 variety of measurement instruments used to assess a student's progress
19 throughout the student's school career. These measures may be used to
20 assess a graduate's preparedness for work, continued schooling, and
21 successful living.
- 22 (7) Consider how the system of standards can serve the needs of
23 exceptional children.
- 24 (8) Consider and recommend any necessary refinements to the substance
25 or implementation of the Standard Course of Study and the Testing
26 Program.
- 27 (9) Recommend the best methods of comparing North Carolina students'
28 performance to that of students in other states and across the nation.
- 29 (10) Recommend how standards and performance measures can
30 accommodate the growing and changing body of knowledge.
- 31 (11) Recommend any necessary statutory amendments to implement its
32 recommendations.

33 (b) As a basis for carrying out the duties set out in subsection (a) of this section,
34 the Commission shall:

- 35 (1) Consider State education initiatives, including the Standard Course of
36 Study and the North Carolina Testing Program.
- 37 (2) Hold public hearings as it deems necessary.
- 38 (3) Seek to reach a broad statewide consensus on what students should
39 learn and know in order to be successful high school graduates.
- 40 (4) Review national efforts to develop standards and assessments,
41 including the work of the National Council on Education Standards
42 and Testing and the National Board of Professional Teaching
43 Standards.
