8 THE BOARD OF TRUSTEES WITH RESPECT TO MATCH REQUIREMENTS
9 IN CONNECTION WITH GRANT AWARDS, AND TO ESTABLISH TERM
10 LIMITS FOR THE BOARD OF TRUSTEES.

11 The General Assembly of North Carolina enacts:

12 **SECTION 1.** G.S. 113A-254 reads as rewritten:

13 **"§ 113A-254. Grant requirements.**

14 (a) Eligible Applicants. – Any of the following are eligible to apply for a grant
15 from the Fund for the purpose of protecting and enhancing water quality:

16 (1) A State agency.

17 (2) A local government unit.

18 (3) A nonprofit corporation whose primary purpose is the conservation,
19 preservation, and restoration of our State's environmental and natural
20 resources.

21 (a1) Criteria. – The criteria developed by the Trustees under G.S. 113A-256 apply
22 to grants made under this Article. The common criteria for water projects set in
23 G.S. 159G-23 and the criteria set out in this section also apply to wastewater collection
24 system projects, wastewater treatment works projects, and stormwater quality projects.
25 ~~The common criteria set in G.S. 159G-23 have priority over the criteria set under this~~
26 ~~Article for wastewater collection system projects, wastewater treatment works projects,~~

1 ~~and stormwater quality projects.~~ An application for a wastewater collection system
2 project or a wastewater treatment works project that serves an economically distressed
3 local government unit has priority.

4 (b) Matching Requirement. – The Board of Trustees shall establish matching
5 requirements for grants awarded under this Article. ~~The Board of Trustees may require a~~
6 ~~match of up to twenty percent (20%) of the amount of the grant awarded.~~ This
7 requirement may be satisfied by the donation of land to a public or private nonprofit
8 conservation organization as approved by the Board of Trustees. The Board of Trustees
9 may also waive the requirement to match a grant pursuant to guidelines adopted by the
10 Board of Trustees.

11 (c) Restriction. – No grant shall be awarded under this article to satisfy
12 compensatory mitigation requirements under 33 USC § 1344 or G.S. 143-214.11.

13 (d) Wastewater Limits. – A wastewater collection system project or a wastewater
14 treatment works project is eligible for a grant under this Article only if it is a
15 high-unit-cost project, as defined in G.S. 159G-20. A grant made under this Article for a
16 wastewater collection system project or a wastewater treatment works project is subject
17 to the cost limits and recipient limits set in G.S. 159G-36 for a grant awarded from the
18 Wastewater Reserve.

19 (e) Stormwater Limits. – The amount of a grant awarded under this Article for a
20 stormwater quality project may not exceed the construction costs of the project. The
21 total amount of grants awarded under this Article to the same recipient for stormwater
22 quality projects for a fiscal year may not exceed the limit set in G.S. 159G-36(c)(1) for
23 grants to the same recipient from the Wastewater Reserve.

24 (f) Withdrawal. – An award of a grant under this Article is withdrawn if the
25 grant recipient fails to enter into a construction contract for the project within one year
26 after the date of the award, unless the Trustees find that the applicant has good cause for
27 the failure. If the Trustees find good cause for a recipient's failure, the Trustees must set
28 a date by which the recipient must take action or forfeit the grant."

29 **SECTION 2.** G.S. 113A-255 is amended by adding a new subsection to
30 read:

31 "(b2) Limitation on Length of Service. – No member of the Board of Trustees shall
32 serve more than two consecutive four-year terms or a total of 10 years."

33 **SECTION 3.** Sections 1 and 3 of this act are effective retroactively to 1
34 January 2006. Section 2 of this act is effective retroactively to 1 July 2006. This act
35 shall not apply to any person who is a member of the Board of Trustees of the Clean
36 Water Management Trust Fund on 30 June 2006.
