

GENERAL ASSEMBLY OF NORTH CAROLINA

Legislative Fiscal Note

REVISED

**BILL NUMBER:** House Bill 2744 (Fourth Edition)

**SHORT TITLE:** Economic Development Program Modifications.

**SPONSOR(S):** Representatives Owens and Daughtridge

<b>FISCAL IMPACT</b>					
	<b>Yes (X)</b>	<b>No ( )</b>	<b>No Estimate Available ( )</b>		
	<u><b>FY 2006-07</b></u>	<u><b>FY 2007-08</b></u>	<u><b>FY 2008-09</b></u>	<u><b>FY 2009-10</b></u>	<u><b>FY 2010-11</b></u>
<b>REVENUES:</b>					
State General Fund (Bill Lee, Sales Tax Refund)	(See "Assumptions and Methodology")				
<b>EXPENDITURES:</b>					
JDIG Program	(See Attachment)				
<b>PRINCIPAL DEPARTMENT(S) &amp; PROGRAM(S) AFFECTED:</b> Department of Commerce.					
<b>EFFECTIVE DATE:</b> When the bill becomes law.					

**CURRENT LAW:** The Job Development Investment Grant (JDIG) Program was created in 2002 as a new economic development tool for new and expanding businesses in North Carolina. JDIG is used to attract businesses to the State by allowing a five-member committee to award grants to businesses. The amounts of the grants are based on income tax withholdings from new jobs created by the businesses.

The William S. Lee Quality Jobs and Business Expansion Act (hereinafter Bill Lee Act) was enacted in 1996, effective beginning with the 1996 tax year with a 2002 sunset. The Act is a package of State tax incentives and has been modified in each subsequent year. The incentives are primarily in the form of tax credits for investment in machinery and equipment and real property, for job creation, and for worker training. In 2000, the General Assembly extended the sunset on the Act until January 1, 2006. During the 2005 Regular Session, the General Assembly further extended the Act until January 1, 2008. There are several exceptions to the 2006 sunset date, one of which involves eligible major industries. Eligible major industries that qualify as such before January 1, 2006, are allowed to claim credits for business activity that occurs on or before January 1, 2010. A taxpayer is an eligible major industry if it will invest at least \$100 million in acquiring,

constructing, and equipping a facility and it is engaged in bioprocessing, the manufacture or distribution of pharmaceuticals or medicines, aircraft manufacturing, computer manufacturing, motor vehicle manufacturing, or semiconductor manufacturing.

The definition of eligible major industries for the purposes of the Bill Lee Act largely conforms to the list of taxpayers who are eligible for a refund on the sales and use taxes paid by the taxpayer on building materials for construction of a new facility in this State. Taxpayers that are eligible for the refund of sales and use taxes are not required to qualify as such by a specific date, but the refund provision expires for purchases made on or after January 1, 2010.

**BILL SUMMARY:** This bill would make numerous changes to the JDIG Program, the Bill Lee Act, and certain sales and use tax refunds. Most of the provisions of the bill would be effective when they became law.

**Part I. JDIG Changes.** This bill makes numerous changes to the JDIG program. Some of these changes significantly expand or extend the program, whereas others of these changes make changes intended to streamline the administration of the program, clarify certain aspects of the program, or reduce penalties for failure to comply with agreements under the program.

Section 1.2, of the bill increases the maximum amount of total annual liability for agreements entered into during the 2006 calendar year (grant year) from \$15 million to \$30 million. This change is effective for agreements entered into during 2006 only; for agreements entered into in later years, the maximum amount of the total annual liability would return to \$15 million. Under the JDIG program, agreements entered into in one calendar year may result in annual grant payments for the succeeding 12 years.

Section 1.11, of the bill extends the sunset on the JDIG program by an additional two years, through the end of the 2009 calendar year, potentially resulting in payments through the year 2020.

**Part II. Bill Lee Act Changes.** The Bill Lee Act generally sunsets January 1, 2008. However, a taxpayer who qualifies as an eligible “major industry” on or before January 1, 2006 would have a January 1, 2010 sunset. The bill moves the January 1, 2006 eligibility deadline to January 1, 2008.

**Part III. Sales Tax Refund Changes.** Adds “financial services and securities operations and systems development” to the list of industries eligible for the refund. In addition, January 1, 2010 sunset on the refunds is extended to January 1, 2013.

#### **ASSUMPTIONS AND METHODOLOGY:**

**Part I. JDIG Changes.** This analysis addresses fiscal impact as a result of the proposed changes to the program in House Bill 2744 and does not address costs associated with the current legislation for the program.

The bill increases the maximum annual total liability cap from \$15 million to \$30 million for the 2006 calendar year, and extends the sunset requirement by two years (from 2008 to 2010). Current legislation stipulates grant terms shall not exceed 12 years starting with the first year a grant

payment is made. *This analysis assumes that the first payment is made during the first year of the award, and that the maximum allowable amount will be awarded in each grant year.*

Increase Maximum Annual Liability for the 2006 Calendar Year:

Increasing the maximum annual liability amount for the 2006 grant year could potentially result in an additional \$15 million dollar obligation from the state for awards for that year and the following 12 years (based on the existing legislation for grant terms). Assuming that the Department would award the maximum amount allowed for new agreements during 2006, the total fiscal impact associated with the maximum cap increase would potentially equal \$180 million (12 years x \$15,000,000). It should be noted that this is not the total cost for *all* grants awarded under the JDIG program, only the additional grants awarded due to increasing the annual cap for one calendar year. (See Attachment)

Extend the Sunset from January 1, 2008 to January 1, 2010:

Extending the sunset date for the program will allow for new grants to be awarded for an additional two years. The bill allows for new grants be awarded up to a maximum amount of \$15 million for 2008 (potentially paid through 12 years or 2020); and for an additional \$15 million to be awarded for up to 12 years beginning in 2009 (ending in 2021). The cumulative impact of allowing the award of new grants for two additional years would potentially equal \$390 million (assuming maximum payout over the allowable 12 grant years). (See Attachment)

**Total Fiscal Impact Estimate of JDIG Portion of HB 2744:**

<b>Proposed Legislative Change:</b>	<b>General Fund Cost Estimate:</b>
Increase the Maximum Cap to \$30 million for 2006	(\$180,000,000)
Extend Sunset for Two Years	(\$390,000,000)
<b>Total Projected Cost of Proposed JDIG Changes</b>	<b>(\$570,000,000)*</b>

\*Note: This analysis does not include any projections regarding potential increases to General Fund Revenue directly associated with the award of JDIG Grants.

**Part II. Bill Lee Act Changes.** The practical effect of this provision is to extend from January 1, 2006 to January 1, 2008 the window of time for eligible companies to qualify for later sunset in the Bill Lee Act (2010 instead of 2008) applying to major industry tax incentives. This time extension for qualification might allow a company being recruited to take advantage of the longer sunset. At this time the Department of Commerce is not aware of any companies who will be able to use this provision. In any case, the provision would have no immediate impact but could affect 2009-10 and 2010-11 fiscal year revenues to the extent that additional taxpayers qualify.

**Part III. Sales Tax Refund Changes.** The Department of Commerce requested the extension of sales tax refund eligibility to financial service and securities facilities in order to have the potential

to recruit companies contemplating a move from a money center to North Carolina. At this time the Department is not aware of any major companies who will be able to take advantage of this change. The other change in the bill extends the sunset on refunds from 2010 to 2013. The Department of Revenue's October 2005 report on state tax expenditures does not list the historical revenue loss from this item. One reason might be that the original 2003 special session legislation creating the refund was adopted for the purpose of attracting a single major taxpayer to the state. Thus, the reporting of this item could lead to a confidentiality issue. For information purposes, the original 2003 session fiscal note indicated a potential 2007-08 cost of \$2.6 million, primarily from one client the Department of Commerce was attempting to attract.

**TECHNICAL CONSIDERATIONS:**

Total projected costs are based on an assumption that increasing the annual cap by \$15 million for one year obligates the state to pay *up to \$15 million per year* for those new agreements for a maximum of 12 years. The fact that the annual total liability returns to the current cap of \$15 million effective January 1, 2007 will not impact the requirement that the state continue to pay for the new agreements entered into during 2006 for up to 12 years. If the Department does not award the maximum amount of \$30,000,000 for 2006 the cumulative impact would be less than the amounts indicated in this analysis.

Any projected increases in revenue generated by the award of JDIG grants have not been included in this analysis. The analysis covers only the projected costs associated with the program. Section 1.13 of the bill does require the Department of Commerce to conduct a study of the program by February 1, 2007.
