SECTION 2. G.S. 90-233 reads as rewritten:

"§ 90-233. Practice of dental hygiene.

(a) A dental hygienist may practice only under the supervision of one or more licensed dentists. This subsection shall be deemed to be complied with in the case of dental hygienists employed by or under contract with a local health department or State government dental public health program and especially trained by the Dental Health Section of the Department of Health and Human Services as public health hygienists, while performing their duties for the persons officially served by the local health department or State government program under the direction of a duly licensed dentist employed by that program or by the Dental Health Section of the Department of Health and Human Services.

(a1) A dental hygienist who has three years of experience in clinical dental hygiene or a minimum of 2,000 hours performing primarily prophylaxis or periodontal debridement under the supervision of a licensed dentist, who completes annual CPR certification, who completes six hours each year of Board-approved continuing education in medical emergencies in addition to the requirements of G.S. 90-225.1, and

who is designated by the employing dentist as being capable of performing clinical hygiene procedures without the direct supervision of the dentist, may perform one or more dental hygiene functions as described in G.S. 90-221(a) without a licensed dentist being physically present if all of the following conditions are met:

- (1) A licensed dentist directs in writing the hygienist to perform the dental hygiene functions.
