

GENERAL ASSEMBLY OF NORTH CAROLINA

Session 2009

Legislative Actuarial Note

HEALTH BENEFITS

BILL NUMBER: House Bill 535 (First Edition)
SHORT TITLE: Health Insurance Coverage/Lymphedema.
SPONSOR(S): Representatives Insko, England, Cotham, and Stewart

SYSTEM OR PROGRAM AFFECTED: State Health Plan for Teachers and State Employees (Plan).

FUNDS AFFECTED: State General Fund, State Highway Fund, other State employer receipts; premium payments for dependents of active employees and retired employees of State agencies and universities, local public schools and local community colleges; premium payments for coverages selected by eligible former employees; premium payments for coverages selected by firefighters, rescue squad workers, members of the National Guard, and certain authorized local governments.

BILL SUMMARY:

March 11, 2009

H 535. HEALTH INSURANCE COVERAGE/LYMPHEDEMA. Filed 3/11/09. TO REQUIRE HEALTH INSURERS, INCLUDING THE STATE HEALTH PLAN, TO PROVIDE COVERAGE FOR THE DIAGNOSIS AND TREATMENT OF LYMPHEDEMA.

Enacts new GS 58-3-280 to establish that every health benefit plan, as defined in GS 58-3-167, must provide coverage for the diagnosis, evaluation, and treatment of lymphedema. Requires benefits for equipment, supplies, complex decongestive therapy, gradient compression garments, and outpatient self-management training and education, if the treatment is determined to be medically necessary and is provided by a health care professional approved and licensed or certified by the state to provide diagnosis, evaluation, and treatment for lymphedema. Provides that the same deductibles, coinsurance, and other limitations as apply to similar services must apply to the coverage of lymphedema. Specifies that gradient compression garments (1) require a prescription, (2) are custom-fit for the covered individual, and (3) do not include disposable medical supplies such as over-the-counter compression or elastic knee-high or other stocking products.

Amends GS 90-270.26 and GS 90-270.69 to add to the powers and duties of the North Carolina Board of Physical Therapy Examiners and the North Carolina Board of Occupational Therapy, respectively, that mechanisms be established for assessing the training and competence of practitioners in performing lymphedema treatment.

Effective for all health benefit plans delivered, issued for delivery, or renewed on and after January 1, 2010

Source: Bill Digest H.B. 535 (03/11/0200).

EFFECTIVE DATE: January 1, 2010

ESTIMATED IMPACT ON STATE:

Aon Consulting, the consulting actuary for the State Health Plan for Teachers and State Employees, estimates that the bill will have no financial impact on the Plan given that coverage for Lymphedema related treatment is already a covered benefit.

Hartman & Associates, the consulting actuary for the General Assembly's Fiscal Research Division, estimates that the bill will have no financial impact on the Plan based on the Plan's staff conclusion that Lymphedema related treatment is already covered under the Plan's benefits.

ASSUMPTIONS AND METHODOLOGY: The actuarial analyses used by each respective consulting actuary are on file with the Fiscal Research Division. Copies of each respective consulting actuary's analysis, including assumptions, are also attached to the original copy of this Legislative Actuarial note.

Summary Information and Data about the Plan

The Plan administers health benefit coverage for active employees from employing units of State agencies and departments, universities, local public schools, and local community colleges. Eligible retired employees of authorized employing units may also access health benefit coverage under the Plan. Eligible dependents of active and retired employees are authorized to participate in the Plan provided they meet certain requirements. Employees and retired employees of selected local governments may also participate in the Plan under certain conditions. Members of fire, rescue squads, and the National Guard may also obtain coverage under the Plan provided they meet certain eligibility criteria.

As of July 1, 2008, the State finances the Plan on a self-funded basis and administers benefit coverage under a Preferred Provider Option (PPO) arrangement. The Plan's receipts are derived through premium contributions, investment earnings and other receipts. Premiums for health benefit coverage are paid by (1) employing agencies for active employees, (2) the Retiree Health Benefit Fund for retired employees, and (3) employees and retirees who elect dependent coverage. Total requirements for the Plan are estimated to be \$2.6 billion for FY 2008-09. The Plan's PPO benefit design includes three alternative benefit levels offered to plan members. The three alternative benefit levels include the following:

- 1) The "Basic" 70/30 plan that offers higher out-of pocket requirements in return for lower fully contributory dependent premiums;
- 2) The "Standard" 80/20 plan; and
- 3) The "Plus" 90/10 plan with enhanced benefits via lower out-of pocket requirements as compared to the other PPO plan alternatives offered.

Employees and retired employees electing coverage under the Plus alternative must make a partially contributory premium contribution for their own coverage. The Basic and Standard plans offer coverage to employees and retired employees on a noncontributory basis. Coverage for dependents under all plans is offered on a fully contributory basis.

Financial Condition

Financial Projection (Revised) for FY 2008-09 -- For the fiscal year beginning July 1, 2008, the Plan began its operations with a beginning cash balance of \$139.8 million. Receipts for the year are projected to be \$2.3 billion from premium collections, \$53.9 million from Medicare Part D subsidies, and \$2.7 million from investment earnings, for a total of slightly over \$2.3 billion in receipt income for the year. Projected disbursements from the Plan are expected to be \$2.4 billion in claim-payment expenses and \$168.7 million in administration and claims-processing expenses for projected total expenses of nearly \$2.6 billion for FY 2008-09. The Plan's net operating loss is projected to be approximately \$264.4 million for the fiscal year, assuming a 9% annual claims growth trend.

Projected operating losses are expected to deplete the Plan's cash balance of \$139.8 million and leave it without sufficient operating resources to continue operations for the fiscal year. It is currently estimated by the Plan's Executive Administrator that the Plan will not be able to pay claims on a timely basis by March 31, 2009.

Consequently, the reforecast of Plan finances now indicates that the Plan will require up to \$300 million in additional resources to operate for the balance of the 2008-09 fiscal year. This amount represents the estimated funds necessary to pay claims and administrative expenses through June 30, 2009, plus funding a minimum stabilization reserve equal to 7.5% of projected claims, and assuming a future premium rate increase effective October 1, 2009.

Other Information

Additional assumptions include Medicare benefit "carve-outs," cost containment strategies including prior approval for certain medical services, utilization of the "Blue Options" provider network, case and disease management for selected medical conditions, mental health case management, coordination of benefits with other payers, a prescription drug benefit manager with manufacturer rebates from formularies, and fraud detection, and other authorized actions by the Executive Administrator and Board of Trustees to manage the Plan to maintain and improve the Plan's operation and financial condition where possible. Claim cost trends are expected to increase at a rate of 9% annually according to the Plan's consulting actuary. Investment earnings are based upon a 4.5% return on available cash balances.
