(1b) Captivity Permit. – Authorizes the possession of live wildlife that may lawfully be permitted to be retained alive, in accordance with governing rules of the Wildlife Resources Commission. This permit may not substitute for any required collection license or captivity license, but may be temporarily issued for possession of wild animals or wild birds for scientific, educational, or exhibition purposes pending action on a captivity license or following its denial or termination. If this permit is issued for fish to be held indefinitely, the Wildlife Resources Commission may provide for periodic renewals of the permit, at least once each three years, to insure a review of the circumstances and conditions under which fish are kept. Wild animals and wild birds kept temporarily in captivity under this permit must be humanely treated and in accordance with any stipulations in the permit, but the standards of caging and care applicable to species kept under the captivity license do not apply unless specified in the permit.
