

**§ 87-84. Findings and policy.**

The General Assembly of North Carolina finds that improperly constructed, operated, maintained, or abandoned wells can adversely affect the public health and the groundwater resources of the State. Consistent with the duty to safeguard the public welfare, safety, health and to protect and beneficially develop the groundwater resources of this State, it is declared to be the policy of this State to require that the location, construction, repair, and abandonment of wells, and the installation of pumps and pumping equipment conform to such reasonable requirements as may be necessary to protect the public welfare, safety, health and groundwater resources. (1967, c. 1157, s. 2.)
