The declaration of intent shall describe the ordinance which it is proposed that the authority adopt. The declaration of intent shall be submitted to each governing body for review and comment. The authority shall consider any comment or suggestions offered by any governing body with respect to the proposed ordinance or amendment. Thereafter, the authority shall be authorized to adopt such ordinance or amendment to it at any time after 60 days following the submission of the declaration of intent to each governing body.

(14d) To require the owners of developed property on which there are situated one or more residential dwelling units or commercial establishments located within the jurisdiction of the authority and within a reasonable distance of any waterline or sewer collection line owned, leased as lessee, or operated by the authority to connect the property with the waterline, sewer connection line, or both and fix charges for the connections. The power granted by this subdivision may be exercised by an authority only to the extent that the service, whether water, sewer, or a combination thereof, to be provided by the authority is not then being provided to the improved property by any other political subdivision or by a public utility regulated by the North Carolina Utilities Commission pursuant to Chapter 62 of the General Statutes. In the case of improved property that would qualify for the issuance of a building permit for the construction of one or more residential dwelling units or commercial establishments and where the authority has installed water or sewer lines or a combination thereof directly available to the property, the authority may require payment of a periodic availability charge, not to exceed the minimum periodic service charge for properties that are connected. This subdivision applies only to a water and sewer authority whose membership includes part or all of a county that has a population of at least 40,000 according to the most recent annual population estimates certified by the State Planning Officer.

(15) To do all acts and things necessary or convenient to carry out the powers granted by this Article.

(16) To purchase real or personal property as provided by G.S. 160A-20, in addition to any other method allowed under this Article.

(b) In addition to the powers given under subsection (a) of this section, an authority created under G.S. 162A-3.1 and its participating political subdivisions may enter into agreements obligating these subdivisions to make payments to the authority for treated water delivered or made available or expected to be delivered or made available by the authority, regardless of whether treated water is actually delivered or made available. Such payments may be designed to cover the authority's operating costs (including debt service and related amounts) by allocating those costs among the participating political subdivisions and by requiring these subdivisions to pay additional amounts to make up for the nonpayment of defaulting subdivisions. The participating political subdivisions may agree to budget for and appropriate such payments. Such payment obligations may be made absolute, unconditional, and irrevocable and required to be performed strictly in accordance with the terms of such agreements and without abatement or reduction under all circumstances whatsoever, including whether or not any facility of the authority is completed, operable or operating and, notwithstanding the suspension, interruption, interference, reduction or curtailment of the output of any such facility or the treated water contracted for, and such obligations may be made subject to no reduction, whether by offset or otherwise, and not conditioned upon the performance

or nonperformance of the authority or any participating political subdivision under any agreement. Such payment obligations are in consideration of any output or capacity that may at any time be available from facilities of the authority. The participating political subdivisions may agree to make such payments from limited or specified sources. To the extent such payments relate to debt service of the authority and related amounts, they may not be made from any moneys derived from exercise by the participating political subdivisions of their taxing power, and such payment obligations shall not constitute a pledge of such taxing power. The participating political subdivisions may agree (i) not to pledge or encumber any source of payment and (ii) to operate (including fixing rates and charges) in a manner that enables them to make such payments from such sources. The participating political subdivisions may also secure such payment obligations with a pledge of or lien upon any such sources of payment. Notwithstanding the provisions of G.S. 162A-9 or any other law to the contrary, an authority entering into any such agreement need not fix rates, fees and other charges for its services except as provided herein, and such rates, fees and charges need not be uniform through the authority's service areas. Notwithstanding the provisions of G.S. 160A-322 or any other law to the contrary, agreements described herein may have a term not exceeding 50 years. Notwithstanding any law to the contrary, the execution and effectiveness of any agreement authorized hereby shall not be subject to any authorizations or approvals by any entity except the parties thereto. Each authority and its participating political subdivisions shall have the power to do all acts and things necessary or convenient to carry out the powers granted by this subsection.

(c) In addition to the powers given under subsection (a) of this section, an authority that holds a certificate issued after December 1, 1991, by the Environmental Management Commission under G.S. 162A-7 (repealed) may acquire property by the power of eminent domain or by gift, purchase, grant, exchange, lease, or any other lawful method for one or more of the following purposes:

- (1) To relocate a road or to construct a road necessitated by construction of water supply project.
- (2) To establish, extend, enlarge, or improve storm sewer and drainage systems and works, or sewer and septic tank lines and systems.
- (3) To establish drainage programs and programs to prevent obstructions to the natural flow of streams, creeks and natural water channels or to improve drainage facilities. The authority contained in this subdivision is in addition to any authority contained in Chapter 156 of the General Statutes.
- (4) To acquire property for wetlands mitigation."
