An authorizing agent signing a cremation authorization form shall be personally and individually liable for all damages occasioned thereby and resulting therefrom.

(c) A crematory licensee shall have the legal right to cremate human remains upon the receipt of a cremation authorization form signed by an authorizing agent. There shall be no liability for a crematory licensee that cremates human remains pursuant to such authorization, or that releases or disposes of the cremated remains pursuant to such authorization, except for such crematory licensee's gross negligence, provided that the crematory licensee performs such functions in compliance with the provisions of this Article. There shall be no liability for a funeral establishment or licensee thereof that causes a crematory licensee to cremate human remains pursuant to such authorization, except for gross negligence, provided that the funeral establishment and licensee thereof and crematory licensee perform their respective functions in compliance with the provisions of this section.

(d) After the authorizing agent has executed a cremation authorization form and prior to the commencement of the cremation, the authorizing agent may revoke the authorization and instruct the crematory licensee to cancel the cremation and to release or deliver the human remains to another crematory licensee or funeral establishment. Such instructions shall be provided to the crematory licensee in writing. A crematory licensee shall honor any instructions given to it by an authorizing agent under this section, provided that it receives such instructions prior to commencement of the cremation of the human remains.

"§ 90-210.46. Preneed cremation arrangements.

(a) Any person, on a preneed basis, may authorize the person's own cremation and the final disposition of the person's cremated remains by executing, as the authorizing agent, a cremation authorization form on a preneed basis and having the form signed by two witnesses. The person shall retain a copy of this form, and a copy shall be sent to the funeral establishment and/or the crematory licensee. Any person shall have the right to transfer or cancel this authorization at any time prior to the person's death by destroying the executed cremation authorization form and providing written notice to the party or parties that received the cremation authorization form.

(b) Any cremation authorization form executed by an individual as the individual's own authorizing agent on a preneed basis shall contain the following disclosure, which shall be completed by the authorizing agent:

___ I do not wish to allow any of my survivors the option of canceling my cremation and selecting alternative arrangements, regardless of whether my survivors deem such a change to be appropriate.

___ I wish to allow only the survivors whom I have designated below the option of canceling my cremation and selecting alternative arrangements or continuing to honor my wishes for cremation and purchasing services and merchandise if they deem such a change to be appropriate.

(c) Except as provided in subsection (b) of this section, at the time of the death of a person who has executed, as the authorizing agent, a cremation authorization form on a preneed basis, any person in possession of the executed form, and any person charged with making arrangements for the disposition of the decedent's human remains who has knowledge of the existence of the executed form, shall use the person's best efforts to ensure that the decedent's human remains are cremated and that the final disposition of the cremated remains is in accordance with the instructions contained on the cremation authorization form.

(d) If a crematory licensee is in possession of a completed cremation authorization form, executed on a preneed basis, and the crematory licensee is in possession of the designated human remains, then the crematory licensee shall be required to cremate the human remains and dispose of the human remains according to the instructions contained on the cremation authorization form. A crematory licensee that complies with the preneed cremation authorization form under these circumstances may do so without any liability. A funeral establishment or licensee thereof that causes a crematory licensee to act in accordance with the preneed cremation authorization form under these circumstances may do so without any liability.

(e) Any preneed contract sold by, or preneed arrangements made with, a funeral establishment that includes a cremation shall specify the final disposition of the cremated remains, pursuant to G.S. 90-210.50. In the event that no different or inconsistent instructions are provided to the crematory licensee by the authorizing agent at the time of death, the crematory licensee shall be authorized to release or dispose of the cremated remains as indicated in the preneed agreement. Upon compliance with the terms of the preneed agreement, the crematory licensee, and any funeral establishment or licensee thereof who caused the crematory licensee to act in compliance with the terms of the preneed agreement, shall be discharged from any legal obligation concerning such cremated remains.

(f) The provisions of this section shall not apply to any cremation authorization form or preneed contract executed prior to the effective date of this act. Any funeral establishment, however, with the written approval of the authorizing agent or person who executed the preneed contract, may designate that such cremation authorization form or preneed contract shall be subject to this act.

(f) All records that are required to be maintained under this Article shall be subject to inspection by the Board or its agents upon request.

"§ 90-210.48. Cremation containers.

(a) No crematory licensee shall make or enforce any rules requiring that any human remains be placed in a casket before cremation or that human remains be cremated in a casket, nor shall any crematory licensee refuse to accept human remains for cremation for the reason that they are not in a casket.

(b) No crematory licensee shall make or enforce any rules requiring that any cremated remains be placed in an urn or receptacle designed to permanently encase the cremated remains after the cremation process has been performed.

"§ 90-210.45. Cremation procedures.

~~(a) No human body shall be cremated before the crematory operator receives a death certificate signed by the attending physician or an authorization for cremation signed by a medical examiner.~~

~~(b) Human remains shall not be cremated within 24 hours after the time of death, unless such death was a result of an infectious, contagious or communicable and dangerous disease as listed by the Commission of Health Services pursuant to G.S. 130A-134, and unless such time requirement is waived in writing by the medical examiner, county health director, or attending physician where the death occurred. In the event such death comes under the jurisdiction of the medical examiner, the human remains shall not be received by the crematory operator until authorization to cremate has been received in writing from the medical examiner of the county in which the death occurred. In the event the crematory operator is authorized to perform funerals as well as cremation, this restriction on the receipt of human remains shall not be applicable.~~

~~(c) No unauthorized person shall be permitted in the crematory area while any human remains are in the crematory area awaiting cremation, being cremated, or being removed from the cremation chamber. Relatives of the deceased, the authorizing agent, medical examiners and law enforcement officers in the execution of their duties shall be authorized to have access to the holding facility and crematory facility.~~

~~(c1) Human remains shall be cremated only while enclosed in a cremation container.~~

~~(d) The simultaneous cremation of the human remains of more than one person within the same cremation chamber is forbidden.~~

~~(d1) Every crematory shall have a holding facility, within or adjacent to the crematory, designated for the retention of human remains prior to cremation. The holding facility must comply with any applicable public health laws and rules and must meet all of the standards established pursuant to rules adopted by the Board.~~

~~(e) Crematory operators shall comply with standards established by the Board for the reduction and pulverization of human remains by the cremation process.~~

"§ 90-210.49. Cremation procedures.

- (3) Date of birth;
- (4) Sex;
- (5) Place of death;
- (6) Facility name (if not institution, give street and number);
- (7) County of death;
- (8) City of death; and
- (9) Time of death (if known).

(b) When required by G.S. 130A-388 and the rules adopted pursuant to that section or by successor statute and the rules pursuant to it, a cremation authorization form signed by a medical examiner shall be received by the crematory prior to cremation.

(c) In deaths coming under full investigation by the Office of the Chief Medical Examiner, a burial-transit permit/cremation authorization form must be received by the crematory before cremation.

(d) No body shall knowingly be cremated with a pacemaker or defibrillator or other potentially hazardous implant or condition in place. The authorizing agent for the cremation of the human remains shall be responsible for taking all necessary steps to ensure that any pacemaker or defibrillator or other potentially hazardous implant or condition is removed or corrected prior to cremation. If an authorizing agent informs the funeral director and the crematory licensee on the cremation authorization form of the presence of a pacemaker or defibrillator or other potentially hazardous implant or condition in the human remains, then the funeral director shall be responsible for ensuring that all necessary steps have been taken to remove the pacemaker or defibrillator or other potentially hazardous implant or to correct the hazardous condition before delivering the human remains to the crematory.

(e) Human remains shall not be cremated within 24 hours after the time of death, unless such death was a result of an infectious, contagious, or communicable and dangerous disease as listed by the Commission of Health Services, pursuant to G.S. 130A-134, and unless such time requirement is waived in writing by the medical examiner, county health director, or attending physician where the death occurred.

(g) Human remains shall be cremated only while enclosed in a cremation container. Upon completion of the cremation, and insofar as is possible, all of the recoverable residue of the cremation process shall be removed from the cremation chamber. Insofar as is possible, all residue of the cremation process shall then be separated from any foreign residue or anything else other than bone fragments and then be processed by pulverization so as to reduce the cremated remains to unidentifiable particles. Any foreign residue and anything other than the particles of the cremated remains shall be removed from the cremated remains as far as possible and shall be disposed of by the crematory licensee. This section does not apply where law otherwise

provides for commingling of human remains. The fact that there is incidental and unavoidable residue in the cremation chamber used in a prior cremation is not a violation of this subsection.

(h) The simultaneous cremation of the human remains of more than one person within the same cremation chamber is forbidden.

(i) Every crematory shall have a holding and processing facility, within the crematory, designated for the retention of human remains prior to cremation. The holding and processing facility must comply with any applicable public health laws and rules and must meet all of the standards established pursuant to rules adopted by the Board.

(j) Crematory licensees shall comply with standards established by the Board for the processing and pulverization of human remains by cremation.

(k) Nothing in this Article shall require a crematory licensee to perform a cremation that is impossible or impractical to perform.

(l) The cremated remains with proper identification shall be placed in a temporary container or the urn selected or provided by the authorizing agent. The temporary container or urn contents shall not be contaminated with any other object, unless specific authorization has been received from the authorizing agent or as provided in subsection (g) of this section.

(m) If the cremated remains are greater than the dimensions of a temporary container or urn, the excess cremated remains shall be returned to the authorizing agent or its representative in a separate container or urn.

(n) If the cremated remains are to be shipped, the temporary container or urn shall be packed securely in a suitable shipping container that complies with the requirements of the shipper. Cremated remains shall be shipped only by a method which has an internal tracing system available and which provides a receipt signed by the person accepting delivery, unless otherwise authorized in writing by the authorizing agent. Cremated remains shall be shipped to the proper address as stated on the cremation authorization form signed by the authorizing agent.

"§ 90-210.46. Disposition of cremated remains.

Records of retention and disposition of cremated remains shall be kept by the crematory operator pursuant to G.S. 90-210.44.~~

~~(b) The authorizing agent is responsible for the disposition of the cremated remains. If, after a period of 30 days from the date of cremation, the authorizing agent or his representative has not specified the ultimate disposition or claimed the cremated remains, the crematory operator or the person in possession of the cremated remains may dispose of the cremated remains only in a manner permitted in this section. The authorizing agent shall be responsible for reimbursing the crematory operator for all reasonable expenses incurred in disposing of the cremated remains pursuant to this section. If cremated remains are to be disposed of by the crematory operator on private property, other than dedicated cemetery property, the authorizing agent shall provide the crematory operator with the written consent of the property owner.~~

~~(d) Except with the express written permission of the authorizing agent no person may:~~

This subdivision shall not apply to the scattering of cremated remains at sea or by air from individual closed containers or to the scattering of cremated remains in an area located in a dedicated cemetery and used exclusively for such purposes.~~
- ~~(2) Place cremated remains of more than one person in the same closed container. This subdivision shall not apply to placing the cremated remains of members of the same family in a common closed container designed for the cremated remains of more than one person.~~

The representative of the crematory operator and the individual receiving the cremated remains shall sign a receipt indicating the name of the deceased, and the date, time, and place of the receipt. After this delivery, the cremated remains may be transported in any manner in this State, without a permit, and disposed of in accordance with the provisions of this Article.~~

A person may utilize a boat or airplane to perform such scattering. Cremated remains shall be removed from their closed container before they are scattered.~~

"§ 90-210.50. Final disposition of cremated remains.

(a) The authorizing agent shall provide the person with whom cremation arrangements are made with a signed statement specifying the ultimate disposition of the cremated remains, if known. The crematory licensee may store or retain cremated remains as directed by the authorizing agent. Records of retention and disposition of cremated remains shall be kept by the crematory licensee pursuant to G.S. 90-210.47.

(b) The authorizing agent is responsible for the disposition of the cremated remains. If, after a period of 30 days from the date of cremation, the authorizing agent or the agent's representative has not specified the final disposition or claimed the cremated remains, the crematory licensee or the person in possession of the cremated remains may dispose of the cremated remains only in a manner permitted in this section. The authorizing agent shall be responsible for reimbursing the crematory licensee for all reasonable expenses incurred in disposing of the cremated remains pursuant to this section. A record of such disposition shall be made and kept by the person making the disposition. Upon disposing of cremated remains in accordance with this section, the crematory licensee or person in possession of the cremated remains shall be discharged from any legal obligation or liability concerning such cremated remains.

(c) In addition to the disposal of cremated remains in a crypt, niche, grave, or scattering garden located in a dedicated cemetery, or by scattering over uninhabited public land, the sea, or other public waterways pursuant to subsection (f) of this section, cremated remains may be disposed of in any manner on the private property of a consenting owner, upon direction of the authorizing agent. If cremated remains are to be disposed of by the crematory licensee on private property, other than dedicated cemetery property, the authorizing agent shall provide the crematory licensee with the written consent of the property owner.

(d) Except with the express written permission of the authorizing agent, no person may:

to the scattering of cremated remains in an area located in a dedicated cemetery and used exclusively for such purposes.

- (2) Place cremated remains of more than one person in the same closed container. This subdivision shall not apply to placing the cremated remains of members of the same family in a common closed container designed for the cremated remains of more than one person with the written consent of the family.

(e) Cremated remains shall be released by the crematory licensee to the individual specified by the authorizing agent on the cremation authorization form. The representative of the crematory licensee and the individual receiving the cremated remains shall sign a receipt indicating the name of the deceased, and the date, time, and place of the receipt, and contain a representation that the handling of the final disposition will be in a proper manner. After this delivery, the cremated remains may be transported in any manner in this State, without a permit, and disposed of in accordance with the provisions of this Article.

(f) Cremated remains may be scattered over uninhabited public land, over a public waterway or sea, subject to health and environmental standards, or on the private property of a consenting owner pursuant to subsection (c) of this section. A person may utilize a boat or airplane to perform such scattering. Cremated remains shall be removed from their closed container before they are scattered.
