

GENERAL ASSEMBLY OF NORTH CAROLINA  
SESSION 2013

H

3

HOUSE BILL 317\*  
Committee Substitute Favorable 3/27/13  
Senate Education/Higher Education Committee Substitute Adopted 5/29/13

Short Title: Improve Ed. for Children Who Are Deaf. (Public)

Sponsors:

Referred to:

March 18, 2013

1 A BILL TO BE ENTITLED  
2 AN ACT TO IMPROVE EDUCATIONAL OUTCOMES FOR NORTH CAROLINA  
3 CHILDREN WHO ARE DEAF OR HARD OF HEARING.

4 Whereas, children with low-incidence disabilities, as a group, make up  
5 approximately one percent (1%) of the total statewide enrollment in public schools; and

6 Whereas, children with low-incidence disabilities may require highly specialized  
7 services, equipment, and materials from the age of onset; and

8 Whereas, the acquisition of language is essential to the achievement of literacy and  
9 academic success; and

10 Whereas, children who are deaf or hard of hearing, regardless of communication  
11 modality, are entitled to the same opportunity to achieve grade and age-level literacy as other  
12 children; and

13 Whereas, skill in signing or speaking does not guarantee skill in reading and  
14 writing, and reading and writing must be taught using the mode of the individual child's  
15 communication; and

16 Whereas, children who have a solid language base, regardless of whether it is  
17 spoken or signed, become better readers than those who do not; and

18 Whereas, all children who come to school and who are not proficient in reading and  
19 writing English, including children whose spoken language is not English and children who use  
20 non-English American Sign Language (ASL) or other combined signing systems, must receive  
21 specialized instruction in order to read and write English; and

22 Whereas, some children who are deaf or hard of hearing and who are not proficient  
23 in reading and writing English may be eligible for special education services if an  
24 Individualized Education Program (IEP) team determines the child's hearing loss is the reason  
25 the child has not obtained proficiency in reading and writing English; and

26 Whereas, some children who are deaf or hard of hearing require instruction from  
27 highly qualified and certified personnel who can communicate using the individual child's  
28 communication mode; and

29 Whereas, children who are deaf or hard of hearing may be classified as having a  
30 primary disability other than hearing loss for purposes of special education and, therefore, may  
31 not be tracked within existing Department of Public Instruction databases as having a hearing  
32 loss, thus making it challenging to monitor their language development and literacy  
33 achievement; and

1           Whereas, children who are deaf or hard of hearing may be best served by having  
2 opportunities to interact with a sufficient number of same language and communication mode  
3 peers who are of the same age and ability level; and

4           Whereas, it is desirable for children who are deaf or hard of hearing to have  
5 opportunities to interact with adult role models who are deaf or hard of hearing; and

6           Whereas, children who are deaf or hard of hearing should be offered equal  
7 opportunity to benefit from all services and programs at their school; and

8           Whereas, North Carolina has adopted the Common Core State and NC Essential  
9 Standards; Now, therefore,

10 The General Assembly of North Carolina enacts:

11           **SECTION 1.** The State Board of Education shall do at least all of the following to  
12 improve the educational outcomes for North Carolina children who are deaf or hard of hearing:

- 13           (1)     Develop assessment procedures and protocols to measure, at least annually  
14                   or more frequently if specified in a child's Individualized Education Program  
15                   (IEP), the acquisition of language skills necessary for literacy using  
16                   linguistically and culturally appropriate assessment tools. The results of  
17                   these assessments shall be used to determine whether further support and  
18                   services, if any, are needed for a child.
- 19           (2)     Require an IEP team to use the Communication Plan Worksheet for Student  
20                   Who is Deaf or Hard of Hearing to document (i) the team's consideration of  
21                   the language and communication needs of the individual child as the IEP is  
22                   developed, reviewed, or revised, (ii) data to be used in the placement  
23                   decisions made for that child, and (iii) the team's review, at least annually, of  
24                   the child's placement and language and communication needs.
- 25           (3)     Ensure that personnel who are highly qualified in the education of children  
26                   who are deaf or hard of hearing are available to meet the unique needs of  
27                   each child, including interactions in the child's language and communication  
28                   modality to meet academic and social goals.
- 29           (4)     Develop and implement strategies to ensure that parents of a child who is  
30                   deaf or hard of hearing know they are entitled to request that the child's IEP  
31                   team consider placement of their child in a residential setting and, if such a  
32                   request is made, that a representative from one of the two North Carolina  
33                   residential/day program schools for the deaf shall be a member of the IEP  
34                   team.

35           **SECTION 2.** The Department of Health and Human Services and other State  
36 agencies and organizations upon the request of the Department of Public Instruction (DPI) shall  
37 make databases containing information on children under the age of 22 who are diagnosed as  
38 deaf or hard of hearing available to DPI. DPI shall use this information to develop and maintain  
39 a statewide data tracking system for the purpose of coordinating with other State agencies and  
40 organizations and ensuring literacy achievement for all such children who are deaf or hard of  
41 hearing.

42           **SECTION 3.** This act is effective when it becomes law.
